

Chip Fan

Clearing the Path to
Maximum Productivity

Breeze through projects with the Kennametal Chip Fan.

This adaptable tooling accessory features blades that open with centrifugal force to clear your workpieces and avoid recutting chips.

High-quality US 4140 steel cylindrical shank

Durable glass fiber reinforced nylon fan blades

Weldon-Flat design supports use of common end mill adapters

Features through coolant in combination with fan blades

Part Number	Catalog Number	Shank Size	Operating Speed	Tool Length	Diameter w/ Blades Open
7034093	CPFN0750	0.750"	5,000 - 8,000 RPM	5.5" (142mm)	10.0" (254mm)
7034094	CPFN020M	20mm	5,000 - 8,000 RPM	5.5" (142mm)	10.0" (254mm)

Pausing production between cycles to clean up chips can be disruptive and prolong your machining cycle. With the Kennametal Chip Fan, you can count on boosted productivity and reduced project downtime by simply running a powerful unattended cleaning cycle.

Replacement kits/blades are available for purchase upon request.
